DFCYR announces a funding initiative through the American Rescue Plan (ARP) which has been designated to *help young people recover and heal from the isolation and disruption of the pandemic, including youth recreation, employment, enrichment, and other supports*, through the Hartford UNITY (Understanding the Needs In Today's Youth) youth engagement grant program. In this spirit, DFCYR invites youth-serving providers to submit proposals for our **2022 Hartford UNITY grant** opportunity in accordance with the enclosed Request for Proposals (RFP). ## **HARTFORD UNITY RFP Overview**

The City of Hartford Department of Families, Children, Youth and Recreation (DFCYR) announces a funding initiative through the American Rescue Plan (ARP) which has been designated to *help young people recover and heal from the isolation and disruption of the pandemic, including youth recreation, employment, enrichment, and other supports*. The Hartford UNITY (Understanding the Needs In Today's Youth) youth engagement grant program is designed to support activities for Hartford children and youth, ages birth to 24. This grant will help our community recover from profound emotional pain, economic hardship, and social isolation, while at the same time building a foundation for a stronger, healthier, more vibrant, and more resilient city in the years ahead.

## **INTENDED USES**

Youth outreach, engagement, and enrichment opportunities are the primary intended use of UNITY funding. Opportunities should expose youth to social/emotional development strategies and opportunities. Program components may include, but are not limited to: mentorship, positive peer relationship building, sports and recreation, mental health and coping skills, basic life skills, financial literacy, entrepreneurial/business development, employment and work-based learning programs, or other activities, events and experiences which promote and support productive and foundational growth for youth.

Programs must serve Hartford-resident children and youth between the ages of birth to 24. Awarded grantees will be required to provide the State Assigned Student Identifier (SASID) for each youth participant that is enrolled in school.

Priority Populations and Services to be considered are as follows:

- Justice-involved and/or at-risk youth up to age 24
- Disengaged, disconnected, and/or opportunity youth up to age 24
- Adolescents ages 11 to 13 years old or in Middle School grades (6, 7, and 8)
- Young children under 5 years old
- Girls under 18 years old
- High-need neighborhoods
- Enrichment activity deserts
- Mental health and/or wellness services as its own contained program
- Performing arts and culture programs
- Youth outreach efforts

## **YOUTH OUTREACH AND ENGAGEMENT**

Youth outreach is successfully achieved by building trusting relationships with youth, particularly reaching out to those who are not receiving services and are disconnected from education and employment. The purpose of youth outreach is to introduce youth to resources and services that can lead to positive life outcomes such as education enrollment, increased work

experience, permanent employment, and credential attainment. Youth outreach strategies should include the following:

- Relentless and persistent contact with youth.
- Elevating youth voice at multiple tables, and opening positions for them to take on outreach roles.
- A mutual understanding that we will be working together toward positive life outcomes for the youth.
- In a timely manner assessing their interests, needs, aspirations, and levels of work readiness.
- Realizing that one organization may not be able to provide all that the youth needs and therefore, warmly transitioning a youth from one provider to the next.

As a result of these youth outreach strategies, we can both build on existing relationships and also enhance the longevity and quality of current relationships.

To ensure the viability of a program, and be able to effectively measure successful participant engagement, grantees should be able to answer the following questions:

1. How do you plan to measure this outreach for your programmatic goals and objectives?
2. What procedures for receiving feedback will you have in place?

Example: Will you distribute surveys? Conduct talkbacks?

**TARGET POPULATION, OUTCOMES, AND REPORTING**

***Target population.*** Hartford children and youth from birth up to age 24.

***Outcomes.*** Within a Results-Based Accountability (RBA) framework, DFCYR seeks results including that all of Hartford's youth are prepared to succeed in post-secondary education and career pursuits. Youth can better achieve their life goals if they are matched with caring adults who can influence them to establish and maintain positive skills and behaviors.

The framework ensures that grantees will be responsible for population and performance accountability. The grantees programs will provide a positive, safe, enriching and supporting environment where the youth can develop positive life-skills, build relationships and meet program objectives. The grantee program should seek to support community-driven, results-based and data driven efforts to improve the overall health, wellness, outreach and engagement, including developmental outcomes for youth in the Hartford community.

***Reporting Requirements.*** DFCYR views grant reporting as a valuable opportunity to highlight grantees' work in the community, gain program and process insight from grantees, and identify areas for technical assistance and future improvement. DFCYR will provide reporting schedules and templates to grantees. Please note that any report submitted to DFCYR is not considered confidential and may become public, and, therefore, should not contain any information that does not protect the privacy of program participants as governed by the Health Insurance Portability and Accountability Act (HIPAA) and Family Educational Rights and Privacy Act (FERPA) laws.

***Youth Survey and Data Requirements.*** DFCYR requires that grantees report required data via a DFCYR-designated data entry system. Regular data entry will support daily operations by facilitating timely analysis and course correction. Grantees will be required to participate in data sharing of contractually relevant information, established under mutually acceptable terms and conditions with the City of Hartford. Unlike grant reports which may become public, participant data inclusive of Personally Identifiable Information (PII) or Sensitive Personal Information (SPI) is considered confidential and will not be made public or shared with any individual or organization other than those authorized by the participant (or, in the case of participants under 18, their legal guardian).

***SASID (Student Assigned Student Identifier).*** Awarded grantees are required to provide the SASID (Student Assigned Student Identifier) number for any youth in their program that are enrolled in school.
